Jill Kiley MSW  
Subject: Covid Tyranny Task Force Template  
Date: 4-14-23

**Template for passage of**  
**Heath Freedom Resolution**  
**Health Freedom Bill of Rights**

The goal:

1. Being in Florida and being that we have some beneficial laws, pass a county Ordinance, mirroring state statutes so as to not have preemption issues, highlights current Florida Law and most importantly it adds a rejection of the WHO's authority in Healthcare matters.

2. Pass a county Resolution that highlights mistakes made during the past 3 years of dealing with Covid along with the resolve to improve. Here is a copy:

<https://www.dropbox.com/s/7ld5t1zndzr8uuc/4-11-23%20No%20mark%20ups%2C%20Changes%20from%20mtg%20Health%20Freedom%20Resolution%204-11-23%20redline%20changes%20from%20BCC%5B60%5D%20copy.pdf?dl=0>

County Commissioners Strategy

1. Remember, we have almighty God and we have the truth on our side.
2. Work local. Your voice can be heard locally!
3. Always respect your commissioners, your sheriff, your public officials. It is very difficult to take back any communication that is disrespectful.
4. Your commissioners are citizens just like you and me. Be friendly.
5. Be considerate of the fact that they represent the entire community.
6. Educate your commissioners. Bring facts that include evidence and references.
7. Try to meet in person. Come prepared. Come with more than one person. Bring with a retired doctor and or a medical professional. I (Scott Kiley) am a business owner and activist however I always bring Dr. Richard Schroeder with me to commissioner meetings.

8. Read their bio. Know their background. Most of these men and women have been in various forms of service and or civic duty. Show respect for their past because they have earned it. I have come to confirm our commissioners in Collier County are awesome!
9. Get to know their assistants. Be respectful. Commissioners are extremely busy. Their assistants are incredibly important. Make the assistant's job easy. Utilize the assistants in their role with each commissioner.

#### County attorney

1. The county attorney's job is to advise the commissioners on legal matters and keep the county out of trouble.
2. Always respect your attorney.
3. Get to know your attorney.

#### What is your goal?

1. Establish you goal or goals.
2. Build a team of activists. Ten seems to be a good number. Many more can help in the background. Everyone has a purpose and we need an army. However, too many cooks in the kitchen can spoil the soup. Stay organized, unified and professional.
3. Have a single leader. Put your best closer forward. This negotiation and closing requires strong communication skills, salesmanship, strategy, forethought and execution.
4. Create a plan to achieve you goal.
5. Know who is doing what. Stay organized.
6. Keep communications with the commissioners tight. Have a lead communicator. No more than 3 people feeding information to the commissioners or the message gets confusing.
7. There will be a time for mass messaging. Make it count by not doing it 24/7. When your group has an email campaign, it is not about quantity. It is about quality, thoughtful emails and or phone calls.
  - Our goal was passage of the Collier County Health Freedom Bill of Rights
  - Our second goal was passage of the Collier County Health Freedom Resolution

Any activist ready, willing and able to work to enact the same or better in their county is welcome to the attachments.

8. Educate your commissioners
  - a. Books
  - b. Videos
  - c. Internet references
  - d. You must go to the meetings and you must speak. Practice, be organized and prepared!
  - e. Guest speakers who bring solid knowledge backed with references.
  - f. Data, reports, peer reviewed credible articles provide on the record during public meetings. Email these also.

- g. Meetings with doctors/nurses/pharmacists from in town willing to speak and share firsthand knowledge. We had several doctors and nurses that we used.
  - h. Coach everyone to be respectful. This is so important because many citizen activists are not. They lose credibility and trust.
9. Dr. Richard Schroeder is the founder of the Covid Tyranny Task Force. (CTTF) We are a group of citizens who are active in the fight for healthcare freedom. We clearly see all of the tyranny that has unfolded over the past 3 years. We also see the clear destruction of our constitutional republic. Form your group and build your tribe.
10. We meet weekly, discuss issues and take action. Action can include:
- Speaking at county commissioner meetings
  - Speaking at school board meetings
  - Holding peaceful rallies outside hospitals, schools, vaccination sites, government buildings etc.
  - Calling/emailing government officials and letting our voice be heard
  - Meeting with medical boards
  - Spreading truth
  - Going to county fairs and sharing information about the toxic covid injection
  - Passing our brochures designed to educate
11. Citizens must activate to identify good future political candidates that are in alignment with your goals. For the start of 2022, we added 3 conservative school board members and 2 conservative county commissioners to their respective boards.
12. Assign someone to comb through the county commissioner's agenda in advance of the meeting. Proactively be aware of what is going on in your county. Act as necessary.

### Getting the ordinance and the resolution across the finish line

- Get a commissioner to sponsor the ordinance.
- Meet with the county attorney and get his input and legal opinion. Give him a draft. Modify it as you see fit. Go for more if you like.
- Meet with your sheriff. If your county commissioners are not receptive, the sheriff might be your best angle of approach.
- Meet with all commissioners and measure their response.
- Get advice and support from local doctors. These men and women carry great influence.
- Find a retired judge who might be supportive
- Get advice from a constitutional attorney and or local attorney, maybe Dr. Francis Boyle or Liberty Counsel.
- Rally your citizens, divide up tasks and execute. Make certain to have fun along the way!!
- Opposition will come and they will be mean and uneducated. View this as a funny combination. Stick to facts. Stay constructive.

- In county commissioner meetings, bring in guest speakers to help close the deal.

**The resolution is a statement as follows:**

Why do we need a resolution in Collier County? It is our resolve to improve. New pandemics will come and we must do better. We must recognize what we did right and what we did not. The resolution highlights areas of concern and areas needing improvement. Similar to Commissioner Hall's opening remarks on March 28th, in order to preserve liberties and freedom (including one's health) it's imperative to acknowledge mistakes were made, to learn from them, and to take a stance that these overreaches will not happen again in Collier County. We will use the resolution to educate citizens, rally support within our county, teach our constitution and change state statutes that protect our God given rights protected by our constitution. As the saying goes, you have to recognize that there's a problem before you can solve it.

The resolution that will be voted on is not binding. It makes a statement. We will use this as a tool to educate the citizens of Collier on what we do not have, what we should have and the changes we need to make to protect our children, grandchildren and all future generations to come.

We will bring it to all activist groups, police, fire, political clubs, veterans clubs, schools, churches, wherever people gather. We will spread the message of TRUE FREEDOM!

**The Ordinance is needed for these reasons**

We are simply saying, we have state statutes that provide some protection for the citizens of Collier. Our citizens are not aware of the benefits. By adopting our own Health Freedom Bill of Rights ordinance that reflects these state statutes, we can **better educate** and **create awareness** to our citizens. Examples:

- a. We will break out the most pertinent beneficial elements in long lengthy statutes and make it easy to understand.
- b. We will teach citizens of their options and their right to opt their children out of medical mandates and how to complete this process.
- c. We will inform citizens of their rights against discrimination regarding medical mandates.
- d. We will shine a light on areas of state statutes that must be changed.
- e. We will mobilize citizens to get active.
- f. We will spread our success county to county.
- g. We will grow our knowledge of the FL and US constitution.
- h. We will use all of this to make sure we are educated and prepared to fight back against future government overreach.
- i. We will make Collier County the beacon of Freedom in all of Florida!

2. **We have protection** in clause Section Thirteen "Conflict and Severability".

In the event this Ordinance conflicts with State or Federal law, State or Federal law shall apply. If any phrase or portion of the Ordinance is held invalid or unconstitutional by any court of competent jurisdiction, such portion shall be deemed a separate, distinct and independent provision and such holding shall not affect the validity of the remaining portion.

**It is the intent of this Ordinance to mirror State law. Accordingly, this Ordinance shall be automatically amended upon any amendment of Chapter 381, Florida Statutes, or any other relevant State law.**

3. Section Ten provides us protection against the WHO and or international bodies. This is big!
4. Section Seven provides protection against mandates for any Collier County Employee.

MOST IMPORTANTLY, WE ARE DOING SOMETHING! ENOUGH!! OUR COMPLIANCE BECOMES OUR AGREEMENT TO TYRANNY. WE MUST NOT COMPLY!

So there you have it!
